About Training Partnership

As the largest educational institution dedicated to home care workforce development in the country, the SEIU Healthcare NW Training Partnership is a nonprofit 501(c)3 school, created and sponsored by a labor-management partnership including the State of Washington, SEIU 775 and 20 leading home care agencies. The Training Partnership trains more than 40,000 Home Care Aides annually. Across all educational institutions in Washington state, it is second largest in enrollment. The Training Partnership provides high value training to meet the needs of employers, workers and consumers.

A leader in solutions for:

- Adult leaders through training developed to build on existing competencies and be highly applicable and relevant to the job.
- Rural learners and disaggregated workforce through online training, contact center support and localized delivery design.
- Linguistically and culturally diverse learners by training in 13 languages and prioritizing cultural competency.
- Learners with low literacy and/or tech literacy by targeting accessible reading levels and designing online training to be user friendly.

Education Services, Washington State
Board for Community and Technical
Colleges

Bill Moss
Assistant Secretary, DSHS/ALTSA

About the Program

The Advanced Home Care Aide Apprenticeship Graduates are the second cohort of scaled career pathway Home Care Aides in the nation.

This career pathway provides more value to the industry, to consumers, and to workers.

The U.S. Department of Labor Registered Apprenticeship for Advanced Home Care Aides optimizes home care workers' role in reducing total cost of care and supporting consumer health goals, not just long-term care goals.

Through the program, apprentices agree to take an additional 82 hours of advanced classroom work including 12 hours of peer mentoring. Upon graduation, the apprentice is assured a pay increase for the additional training and a certificate of completion from the Department of Labor.

The Advanced Home Care Aide Apprenticeship was recognized by the U.S. Department of Labor as a "Trailblazer and Innovator" in 2012. In addition, The White House recognized the Advanced Home Care Aide Apprenticeship program in 2014 as a model for creating career pathways and opportunity.
